EUROPEAN IMMIGRATION

TO THE

CANADAS & WESTERN STATES!

—BY—

Train & Co's Line.

ENOCH TRAIN & CO., Proprietors of the Boston and Liverpool Line of Packets, hereby give notice that they have made extensive arrangements with the Western Rail Road Corporations, in connection with the Rail Roads in the Western States, and Steamboats on the Lakes, for the forwarding of *pre-paid passengers* from Boston to the Canadas and Western States; and are now selling at their office in Boston, and at their *authorized agencies, pre paid certificates of passage* as follows:

Cincinnati, O.,	24 00
Chicago, Ill.,	25 00
St. Louis, Mo.,	28 00
Milwaukee, Wis.,	25 00

Children under twelve years of age at the time of embarkation, five dollars less than the above; and infants under twelve months three dollars less than the above-named prices, to Boston or Albany, and other places in proportion; but we will not issue a pre-paid certificate for children under twelve years of age, unless accompanied by a passenger over twelve years, who must be paid for at the same time and on the same certificate.

The above prices embrace a steerage passage from Liverpool to Boston, by any of our splendid Line of Packets; provisions at sea according to the undermentioned dietary scale; doctor's attendance and medicine on board when required; port charges at Boston, and all expenses of transportation of passengers and baggage from the ship at Boston, to the destination agreed upon.

In addition to any provisions which the passengers may themselves bring, the following quantities, at least, of water and provisions will be supplied to each steerage passenger of twelve years of age and over, every week during the passage, commencing on the day of sailing, and at least three quarts of water per day.

Two oz. of Tea; 8 oz. of Sugar; 5 lbs. of Oatmeal; 2½ lbs. navy bread; 1 lb. wheat flour; 2 lbs rice.

Children under twelve years of age (not including infants,) are furnished with six pounds of bread stuffs per week, the usual allowance of water, and half allowance of Tea and Sugar.

As soon as our Liverpool House informs us per steamer of the names of *pre-paid* passengers embarked, we publish their names in the *Boston Pilot*, and also notify each purchaser of *pre-paid certificates*, either directly or through our agents.

On the arrival of any of our ships in the outer harbor, we immediately dispatch an agent on board, to give pre-paid passengers the necessary instructions regarding their route westward.

Bedding and utensils for eating and drinking, must be provided by passengers if not coming to the Canadas, or Western States, must furnish their own provisions from Boston.

TRAIN & CO., of Boston, inform those who take an interest in the welfare of Immigrants, that as owners of the only LIVERPOOL and BOSTON LINE of PACKETS, they have determined that their Immigration business shall be conducted in their own name, and on their own responsibility, and by themselves or their immediate servants.

In calling public attention to the subjoined list of the Ships which compose our Boston Line of Packets, we believe that its general reputation *as the first of American Lines* is sufficiently well known and established. The Thousands of Letters which have been sent by our Passage Immigrants to their friends in every part of Europe, have borne ample testimony to the rapid and successful passages made by those Ships, and to the superior Health, Comfort and Safety which their Passengers have hitherto enjoyed. Many of them will be recognized as vessels which have gained the very highest character, by a succession of unusual rapid passages.

Packet Ships which are dispatched in this LINE:

STAR OF EMPIRE,	Capt. BROWN.
WESTERN STAR,	" TREVER.
FRANK PIERCE,	" MAROY.
PRESIDENT,	" CUMMINGS.
CHARIOT OF FAME,	" KNOWLES.
CRAWFORDSHIRE,	" RICHARDSON.
PARLIAMENT,	" SAMPSON.
NORTH AMERICA,	" DUNBAR.
DANIEL WEBSTER,	" HOWLAND.
PLYMOUTH ROCK,	" CALDWELL.
SUNBEAM,	" PUTNAM.
LEVI WOODBURY,	" NICKERSON.

These Ships, when in the Line, sail from Boston on the 5th of each month, and from Liverpool on each week during the year, and are distinguished by a Red Flag with a White Diamond.

Enoch Train, & Co., Nos. 37 and 38 Lewis Wharf, Boston, Massachusetts.

Train & Co., Merchants, No. 5 India Buildings, Water St., Liverpool, Eng.

Train & Co., Passage Office, Nos. 118 & 119, Waterloo Road, Liverpool, Eng.

Train & Co., No. 121 St. Patrick Street, Cork, Ireland.

These magnificent Ships are ALL AMERICAN BUILT and constructed expressly for Packets. They are all new and of the FIRST Class, being built on the most improved principles and of the best materials. They possess all the modern improvements which combine to health and comfort, for, as a superior system of lighting and ventilating, the very best Provisions and a careful medical superintendence.

The Captains have been carefully selected as first-rate sailors and seamanly men, and a competent Surgeon is attached to each Ship, and no expense is spared to render this the best and most popular conveyance to America.

As Train & Co. have made such arrangements with Liverpool, as will PROTECT their friends from the frauds and impositions sometimes practiced there, they believe that those who pre-pay passages cannot have the advantage of visiting Liverpool, or engaging with a Respectable House, on favorable terms, for a well known Line of Magnificent Packet Ships, and in this way avoid the disrespect, annoyance and delay which they so often experience, from those who engage with Agents who are but slightly connected with transient Ships.

As a proof that their Immigration business is conducted on principles uniformly Honorable and Humane, and that they have been distinguished for the most exact fulfillment of all their engagements, we are permitted to refer to the very Rev. THEOBALD MATHEW, Cork, Ireland.

We also subjoin the following testimonial from the Right Reverend JOHN BERNARD FITZPATRICK, D. D., Bishop, Cathedral, Boston.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

CHICAGO, Jan. 22.

The festival at Hamilton, briefly described in my last letter, was brought to a happy close about half-o'clock Friday morning, and those of us who were not yet provided with sleeping accomodations, started at once in quest of lodgings. It was my good fortune to meet with a gentleman (Mr. WILLIAM PENG, of the Customs,) resident in Hamilton, and on "hospitable deeds intent," who provided myself and a friend with comfortable quarters in his own house. On parting for the night he told us that he liked to have the world "well aired" before he rose in the morning, and we, nothing loth after a long day's ride and a late supper, took the hint and slept soundly till 9 o'clock. After breakfast, an hour or two were agreeably occupied in driving about Hamilton, admiring its fine site, its handsome and well-furnished stores, its busy streets, its elegant public edifices, and its snug and substantial private dwellings. Towards 11 o'clock, however, a heavy rain-storm, attended by thunder and lightning, set in, which drove us all for refuge to the spacious Rail Road Depot; the trains being announced to start therefrom, both East and West, at noon, or soon after.

The Eastern train, on its way to the Falls and New York, left us at a quarter past 12 o'clock, carrying off a large moiety of our Milwaukee Delegation, Messrs. MITCHELL, NAZRO, WRIGHT, and McGREGOR. The rest of us (Mr. HOLTON and myself) turned our faces homewards; the train for the West starting about half-past 12.—The road, as it leaves Hamilton, winds up along some very steep and romantic looking ravines, passing close under the castellated and imposing mansion of Sir ALLAN MAC NAB. For some miles the country continues very broken, the grades heavy and the progress of heavily-laden trains necessarily slow; but an hour's ride introduces the traveller to a more level region, the grades grow easier and the Iron Horse moves at a rattling pace. As we sped along I found fresh cause to admire the beauty and fertility of the country along the route, as well as abundant confirmation of our first favorable impressions as to the solidity, safety and comfort of the Great Western Rail-Road.

We reached Windsor, opposite Detroit, before 10 o'clock, but were detained there an hour, in consequence of the steam ferry boat not being "fired up." Crossing the river at 11 o'clock, we proceeded to *the National*, and were made exceedingly comfortable there by the obliging landlord. I can safely recommend the *National* to all wayfarers as an excellent Hotel. Saturday morning found us in the Michigan Central Rail-Road Cars bound for Chicago. The weather was intensely cold (14 degrees below Zero) when we left Detroit, but the cars were well-warmed and the train, in spite of ice and snow, made its time to Marshall, where a good dinner fortified us somewhat for the journey beyond. Just this side of Kalamazoo, on an ascending grade, the snow drifting in upon the track, first obstructed and finally stopped our train. By dint of hard digging, however, we were again released, after three hours' detention. The passengers bore the delay good-naturedly, the conductor, Mr. J. B. RICE, doing all in his power to make us comfortable. It was past 11 at night before we reached this city, and right welcome, in the bitter cold night, were the warm rooms and bright fires of the Tremont House.

"AT HOME," Jan. 24.

Monday morning in Chicago was a *stinger*, and no mistake. A keener morning air I never felt than that which whistled thro' the streets of the Garden City as we rode to the Galena Rail Road station. Coats, Cloaks, Shawls, Buffalo robes and Blankets were in universal and active demand.—It was difficult to keep the cars at all comfortable, even by constantly firing up, and some of the women and children suffered considerably from the cold. Happily the weather moderated during the morning, and when we reached Beloit at 1 o'clock, the cold was quite endurable. We stopped for dinner at the "Beloit House," kept by Mr. BIGELOW—decidedly a shabby place. The table was anything but cleanly and the meal set before twenty or thirty hungry travellers, was execrable. This too, we were told, is the Stage House—if so, the sooner the R. R. Companies and Messrs. FISKE & Co., who run the connecting stages, *change* their stopping-place, the better for their credit and the comfort of the travelling public.

The ride between Beloit and Janesville, over a fine country and in a comfortable coach, was rapid and pleasant; the snow hindering us but little. We were at Janesville by 4 o'clock, where we first heard of the obstructions and delays on the M. & M. Rail Road and received the agreeable information, that the morning train, due there at 12 o'clock, had just reached Whitewater on its way out. Some of us were beginning to calculate the chances of being kept all night at Janesville, when at 5 o'clock the welcome whistle announced the approach of the train, and we all hurried off to the Station to greet its arrival. I only stopped long enough in Janesville to run into friend HOLDEN'S Drug Store (HOLDEN & KEMP) a very complete establishment, where I found, besides their large assortment of "Drugs and Medicines," one or two other articles "too numerous to mention," but particularly good. Backing down to Milton (a capsized Locomotive blocking up the way to the turn-table at Janesville) the cars stopped a few minutes, while our Iron Horses were made to "right about face." The delay was improved by a few of us to get a good hot supper at Mr. GOODRICH'S many-angled mansion. From Milton into Milwaukee we made a good run, getting in at half-past 10, and quite unexpectedly, it would seem, since there was not a sign of a runner, hackman, cabman, or omnibus driver, to take friendly charge of some 200 weary and way-worn travellers and tell them whither to go.

All along the route we found the Depots and Warehouses piled up with grain and pork; loaded cars standing on the track, and people clamorous for the means of getting their produce to market. This unavoidable delays, occasioned by the elements last week, have been so far fortunate however, for the holders of the produce thus detained, that prices have risen considerably in the interval.

For the Sentinel.

The Victims of Delusion.

Messrs. Editors:

I was glad to see your notice and remarks upon the case of one of our most estimable fellow citizens and his son, a young man of much promise, with both of whom I was intimately acquainted. Can nothing be done to stop or hinder the efforts of those who are *encouraging, instigating, and managing* these *delusions*? *Three times* a week a large circle is formed, and the evenings, until a *late* hour, are spent in what these fanatics call "investigations," during which strange, uncommon, and very exciting performances and exhibitions and manifestations take place; and, as the natural and legitimate fruit of it now, two of our friends are maniacs and confined with felons! What shall be said, what *ought* to be said, of *the men*-manages and *leaders* who keep up these *circles*? Not merely "silly *women*," but men are led astray. How much better that mothers and heads of families should be at home, attending to their domestic duties, than spending their time away from home till near midnight in company of those, some of whom, at least, are of doubtful moral character. This allusion is not to females—for we hold to purity of moral character among *males* as well as *females*.

Let, *now*, the eyes of this community be opened, when men, the fathers and heads of families, and promising young men are made maniacs, and that too, through the instigation and management of men of years and experience—some at least of whose heads bear evidence of *many years* of experience.

But this is not *all*—though it be awful and heart rending. Mothers and wives have been induced to leave their families and neglect their duties, until late and unseasonable hours at night, unattended by those whom the rules of a well-ordered custom make their protectors and guardians, and spend their time with those who manifest at least no especial regard for the reputation of their dupes. Let the Press of this city and the pulpit come down upon these delusions, which not *only dethrone reason and ruin families*, but subvert the great substratum of the Christian's hope, the Bible and even *Christianity itself*.

MELANCTHON.

Aspect of Affairs in Europe.

GEO. N. SAUNDERS, the American Consul at Liverpool, writes to the New York Herald that 'Louis Napoleon is preparing for war on the grandest scale. It is known that he will have, by early spring, an invading army of seven hundred thousand men fully equipped. The active part taken by all the Northern Courts, especially that of Austria and Russia, in bringing about the Bourbon fusion, has deeply excited Louis Napoleon. He sees in the success of Nicholas the re-establishment of the Bourbons in France. Hence, notwithstanding his present apparent friendly relations, or rather pleasant coquettry, with Austria, he will, in a few months, strike for the Italian States, and attempt to hold them as the cost of Austrian alliance with Russia, and the Orleanists and Legitimists"

Mr. SAUNDERS adds the advice to our Farmers all over the West to sow plenty of Spring Wheat and plant Corn, as the ports of the Baltic and Black Sea, hitherto the granaries of Europe, will soon be closed by War.

A PHILOSOPHER.—Subscriptions to the *Sentinel*, Daily, Weekly and Tri-Weekly, have poured in upon us, for two or three months past, at a gratifying rate, accompanied frequently by letters of a very complimentary tenor. We give one of these, received yesterday, as an average sample:

———WALWORTH Co., Jany. 21st.

Messrs. Rufus King & Co.:

You will find enclosed $1,00, for which you may credit me one year from the time my present subscription expires. I take two other papers, the N. Y. *Tribune* and *Evening Post*; but we should feel lost without the *Sentinel* for a Weekly visitor. I am a poor man, and have to make my living by hard work; but I do not think I am the worse off, at the year's end, for taking two or three valuable newspapers, as the information I derive from them more than pays cost. Repectfully YOURS,

J. H. S.

PROHIBITORY LIQUOR LAW.—We publish this morning a pretty full abstract of the Prohibitory Liquor Law, introduced into the Senate by Mr. REYNERT. Our readers will do well to "read, mark and inwardly digest" its various provisions. We have not the slightest idea that any such law can ever be enforced in this State, but the People have called for one and the sooner the experiment is tried, the better. As to the provision for again submitting this question to the People next fall, it is an unworthy dodge, a cowardly shifting of responsibility. We hope the Legislature will knock it in the head, without compunction or delay.

THE EDUCATIONAL SYSTEM OF WISCONSIN.—We copy in to-day's paper, from the Iowa Journal of Education, portions of a very interesting letter, from Dr. A. P. LADD, the late efficient Superintendent of Public Institution in this State. It sets forth, clearly and succinctly, the sources of the School Fund, its income, investment and steady growth; the rapid increase in the number of children attending School in the State, and the general condition of our Public and Private Schools. No State in the Union can make a better proportionate show, in this respect, than our own State of Wisconsin.

INSURANCE COMPANIES SUSPENDED.—The General Mutual Insurance Company, of New York, have suspended business, but they say they have ample funds on hand to pay all losses assessed, to re-issue out—standing risks, and leave a surplus for stockholders.

The Ætna Insurance Company of Utica, New York, has issued a notice, stating that owing to numerous and severe losses during the last ninety days it will be impossible for it to meet its liabilities at present.

ST. CLAIR FLATS.—Extensive preparations are being made to tow vessels over St. Clair Flats next season. The following is a list of tow boats for the river:

Str. Dispatch, Capt. Waldo; new str. Franklin Pierce, Capt. Kain; new str. Lily, Capt. Eberts; Swan, Capt. Pierce; John Owen, Captain Pool; Goro, Capt.——

Also, there will be on the flats—

Strs. O. M. Hyde, Roncao, Brothers, United, Improvement, John Hollister, Hastings.

NIAGARA SHIP CANAL.—The Tonawanda *Pilot* of Thursday week says that the preliminary survey for the ship canal route was commenced on the Tuesday immediately previous, by Messrs. D. E. E. MIX, Chief Engineer, and N. K. CONE, Assistant. The route, as contemplated, will commence on the Niagara river, at the foot of White's Island, and continue to the Eighteen Mile Creek, near Lockport.

WEATHER AT ST. LOUIS.—The cold was severe at St. Louis on the 19th; the sleighing good and the Mississippi frozen over so that teams crossed the river readily. This is an unusual occurrence. There were nearly two hundred boats waiting at Cairo, for navigation to open, and a large number of Emigrants congregated there; many of them in a destitute and suffering condition.

MAIL DETENTIONS.—We notice by the St. Louis *Intelligencer* of Friday last, that the mails between that city and Chicago were detained four days by the snow and ice on the Rail Road track. We are not alone in our sufferings on this score.

SAULT STE. MARIE TRADE.—The steamer *Queen City* is to be put on the route, between Chicago and Sault Ste. Marie, as soon as the season opens; and other boats will be added to the line as fast as the wants of business require additional facilities.

"UNITED STATES ILLUSTRATED."—Mr. H. J. MEYER has just issued part 8, 9 and 10 of this superb work. The engravings and letter press are in the first style of art. It will make, when completed, a choice ornament to any library.

☞ Captain FREDERICK S. WHEELER, for many years a steamboat officer on the Lakes and much liked by a host of friends, died of consumption at Buffalo on Thursday last.

A BILL

To prohibit the Sale and Manufacture of Intoxicating Liquors.

(A number of the Sections are much condensed, as the bill is very long.)

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

SECTION 1. No person shall be allowed at any time to manufacture, sell, or give away, by himself, his clerk, servant or agent, directly or indirectly, any spirituous or intoxicating liquors, or any mixed liquors, a part of which is spirituous or intoxicating, except as hereinafter provided.

SEC. 2. One druggist or apothecary, whom the mayor of any city, president of any village, or chairman of any town, may select for that purpose, and who is actually engaged in the business of selling drugs or medicines, shall be at liberty to purchase, sell or manufacture pure and unadulterated alcohol, for medicinal, chemical and mechanical purposes, and no other, and shall, previous to any such purchase, sale or manufacture, execute and deliver to the chairman of town supervisors of any town, to the mayor of any city, or president of any village, where such druggist or apothecary may desire to carry on such business, a bond, with two good and sufficient sureties, to be approved by such chairman, mayor or president, in the sum of five hundred dollars, in substance as follows:

(FORM OF BOND.)

SEC. 3. If any person, by himself, clerk, servant or agent, shall at any time sell or give away any spirituous or intoxicating liquors, or any mixed liquors, part of which is intoxicating, in violation of the provisions of this act, he shall forfeit and pay, on the first conviction, ten dollars and the costs of prosecution, and shall stand committed until the same shall be paid; on the second or any subsequent conviction, he shall pay twenty dollars and the costs of prosecution, and shall be imprisoned in the common jail, not less than three months, nor more than six months; and if any clerk, servant, agent or other person in the employment of or on the premises of another shall violate the provisions of this section, he shall be held equally guilty with the principal, and on conviction shall suffer the same penalty.

SEC. 4. The forfeiture for all bonds given, and all fines collected, in pursuance of this act, shall go to the school fund of the State.

SEC. 5. The chairman of any town, president of any village, and the mayor of any city, whenever complaint shall be made to them that any breach of the conditions of the bond, given by any person in conformity with this act, has been committed, shall notify the person complained of, and if, upon a hearing of the parties, it shall appear that any breach has been committed, they shall immediately commence prosecution for the recovery of said penal sum affixed in said bond, at the expense of such town, village or city.

SEC. 6. No person shall be allowed to be a manufacturer of any spirituous or intoxicating liquor, or common seller thereof, without having complied with the provisions of section 2 of this act, on pain of forfeiting, on the first conviction, the sum of one hundred dollars and costs of prosecution, and in default of payment thereof, the person so convicted shall be imprisoned sixty days in the common jail; and on the second conviction, the person so convicted shall pay the sum of two hundred dollars and costs of prosecution, and in default of payment, shall be imprisoned four months in the common jail; and on the third and every subsequent conviction, shall pay the sum of two hundred dollars, and be imprisoned in the common jail four months in the county where the offence was committed. Said penalty to be recovered before any court of competent jurisdiction, by indictment or by action of debt in the name of the city, town or village where the offence shall be committed. And whenever a default shall be had of any recognizance arising under this act, scire facias shall be issued, returnable at the next term, and the same shall not be condemned, unless for good cause, satisfactory to the court.

SEC. 7. No person engaged in the unlawful traffic in intoxicating liquors shall be competent to sit upon any jury in any case arising from this act, and when information shall be communicated to the court that any member of any panel is engaged in such traffic, or that he is believed to be so engaged, the court shall inquire of the jeryman of whom such belief is entertained; and no answer which he shall make shall be used against him in any case arising under this act; but if he shall answer falsely, he shall be incapable of serving on any jury in this State; but the may decline to answer, in which case, he shall be discharged by the court from all further attendance as a juryman.

SEC. 8. All cases arising under this act, whether by action, indictment or complaint, which shall come before a superior court either by appeal or original entry, shall take precedence in said court of all other business, except those criminal cases, in which the parties are actually under arrest awaiting trial, and the court and the prosecuting officer shall not have authority to enter a nolle prosequi, or to grant a continuance in anycase arising under this act, either before or after the verdict, except when the purposes of justice shall require it.

SEC. 9. If any three persons, voters &c., shall make complaint, warrant of search shall be issued to any sheriff, city marshal or deputy, or to any constable, who shall proceed to search the premises described in said warrant, and if any spirituous or intoxicating liquors are found therein, he shall seize the same, and convey the same to some proper place of security, where he shall keep them until final action is had thereon. But no dwelling-house in which or a part of which a shop is kept shall be searched, unless at least one of said complainants shall testify to some act of sale of intoxicating liquor, therein by the occupant thereof, or by his consent or permission, within at least one month of the time of making said complaint. And the owner or keeper of said liquors, seized as aforesaid, if he shall be known to the officers seizing the same, shall be summoned forthwith to answer as to the liquors, and if he shall not prove that said liquors are of foreign production, that they have been imported under the laws of the United States and in accordance therewith, that they are contained in the original packages in which they were imported, and in quantities not less than the laws of the United States prescribe, they shall be declared forfeited, and shall be destroyed, and the owner or keeper of such liquor shall pay a fine of twenty dollars and costs, or stand committed for thirty days, in default of payment, if in the opinion of the court, said liquors shall have been kept or deposited for the purpose of sale. Custom house certificates not to be received as proof of importation.

SEC. 10. Liquors of unknown owners to be advertised two weeks.

SEC. 11. Appeal to the Circuit Court allowed on giving bond. Nothing in this act shall be constructed to prevent any chemist, artist or manufacturer, in whose art or trade there may be necessary, from keeping at his place of business such reasonable and proper quantity of alcohol as he may have occasion to use in his art or trade, but not for sale.

§ 12. Liquors kept or sold in any tent, shanty, hut or place of any kind for selling refreshments in any public place, on or near the ground of any cattle show, agricultural exhibition, military muster, or public occasion of any kind, to be seized and destroyed and the owners imprisoned 30 days.

SEC 13. Further provisions as to appeals—"In any suit, complaint, indictment or other proceedings against any person for a violation of any of the provisions of this act, other than for the first offence, it shall not be requisite to set forth particularly the record of a former conviction, but it shall be sufficient to allege briefly that such person has been convicted of a violation of this act or as a common seller, as the case may be, and such allegation, in any civil or criminal process in any stage of the proceedings before final judgment, may be amended without terms and as a matter of right."

Sec. 14. It shall be the duty of every Sheriff, Deputy Sheriff or Constable, whenever he shall see any person intoxicated in any public street or place in violation of public decency, or disturbing the public peace or quiet, to apprehend such person and keep him in some safe and convenient place until he shall become sober, and thereupon forthwith to take him before some magistrate authorised to issue a warrant of arrest or search as herein before provided.

Sec. 15. Whenever any person shall appear or be brought before any magistrate as provided in the foregoing section, it shall be the duty of such magistrate to administer to such person an oath or affirmation, and to examine him for the purpose of ascertaining whether any offence has been committed against the provisions of this act. If such person shall refuse to be sworn or affirmed, or to answer any questions pertinent to such examination, he shall be committed to the common jail, there to remain until he shall consent to be sworn or affirmed, or to answer. If upon any such examination it shall appear that any such offence has been committed within the jurisdiction of such magistrate, it shall be his duty to issue a warrant for the arrest of the offender and the search of his premises, as herein before provided. If it shall appear that any such offence has been committed at any place beyond the jurisdiction of such magistrate, it shall be his duty to reduce such examination to writing, and to certify and send the same, by any officer, to any magistrate having jurisdiction of the offence charged, who shall thereupon proceed in relation to such complaint in the same manner as if the same had been made before him,

Sec. 16. All payments, contracts, &c., &c., for or relative to liquor sold illegally, to be void—and no suits to be entertained for liquors.

Sec. 17. No action shall be maintained upon any claim or demand, whatever, for any wine, brandy, rum, or other strong and spirituous liquors or mixed liquors, a part of which is spirituous, sold in violation of the provisions of this act; Provided, however, that this section shall not extend to negotiable paper in the hands of innocent holders.

Sec. 18. Money or other compensation paid for liquors may be recovered back any time within six years from the receiving thereof by the purchaser, his guardian, executors or administrators, or by any of his creditors.

Sec. 19. When the defendant shall rely upon having the legal privilege, or upon the liquor sold having been imported, the burthen of proof shall be and continue upon him. The custom house certificates of importation and proof of marks on the casks corresponding thereto, may be received as evidence that the liquors specified in said certificates was once imported in said cask, but shall not be evidence that the liquor sold in or from such cask was the same liquor once imported therein.

Sec. 20. When the money or other thing shall have been received by any clerk, servant, agent or attorney, the action may be maintained against him if he had knowledge or previous notice that it was for liquor sold in violation of law.

Sec. 21. The defendant shall not be allowed, on the trial of any action against him under any of the provisions of this act, any claims or demands he may have against the plaintiff or person to whom the liquor was sold or furnished, either in set-off, payment or otherwise; nor shall the action of any creditor be defeated by any assignment of the claims by the purchaser.

Sec. 22. No discharge, release, receipt, settlement or admission made by a purchaser, shall defeat or hinder the suit, if it appear that the claim allowed to the purchaser by this act has not been actually paid in good faith, to its full value and amount; and the giving a negotiable note or other obligation shall not be deemed a payment.

Sec. 23. Any plaintiff suing under section 15 of this act may at the trial tender his oath in writing, which shall be received as evidence, unless the defendant shall in writing make oath that he did not, within six years before the commencement of the suit, receive any payment or compensation for any such intoxicating liquor sold to the plaintiff or to any person whom the plaintiff represents, contrary to the provisions of the law, as alleged in the declaration.

Sec. 24. A plaintiff may have the defendant sworn as a witness.

Sec. 25. No answer or disclosure made by a defendant under the provisions of this act shall ever be used against him in any formal action or criminal prosecution.

And if any guardian, executor, or administrator neglect to pay all said moneys, he and his sureties shall be liable for the same on his official bond.

Sec. 27. Executions on judgements to run against the body.

Sec. 28. If such defendant or defendants shall be arrested on such execution, he or they shall be committed to the common jail of the proper county, and shall not be permitted to give bond.—Provided, however, that no person shall be imprisoned on more than one warrant issued upon any judgement recovered on account of the violation of the provisions of this act, at the same time.

Sec. 29. All provisions of this act relating to towns shall be applicable to cities or villages, and those relating to chairman of the board of supervisors shall be applicable to mayor and aldermen of cities and presidents of villages.

Sec. 30. All acts or parts of acts inconsistent with this act are hereby repealed.

Sec. 31. A vote to be taken in November, 1854.

Sec. 32. Separate boxes in which to deposit the ballots herein provided to be cast.

Sec. 33. If upon such canvass it shall be found that there is a majority of votes cast for "Prohibitory Liquor Law, Yes," the legislature shall at its first session thereafter enact a law in all particulars similar to this act, except so much thereof as refers to its submission to the votes of the people; and said act shall take effect from and after its passage.

The School Fund of this state consists of the proceeds of the sale of the sixteenth section in each township, the 500,000 acres donated by Congress to the state upon its admission into the Union, the residue of the Swamp lands, the Saline lands and the five per cent. to which this state is entitled from the sales of government domain within its boundaries. From these various sources there has been already realized the sum of $1,009,000. It is estimated that the entire fund, when all the tracts enumerated are sold, will amount to not less than $5,000,000. The terms upon which the school lands are sold are, the payment of ten per cent. of the purchase price, the balance remaining upon a credit of from ten to thirty years, at an annual interest of seven per cent. payable in advance. Money in the treasury belonging the fund is loaned to individuals at the same rate, on approved security, for the term of five years, with the privilege of extension. The amount of the interest thus derived is annually distributed among those towns which have raised by tax for the same object, a sum equal to one-half the amount received the next previous year, and which have sustained at least three months free school during the same time. The following apportionments of the income of this fund have been already made:

1850	- - - -	46,905,37
1851	- - - -	53,703.34
1852	- - - -	56,128.31
1853 estimated,		70,000,00

The University Fund consists of the proceeds of the sale of seventy-five sections of selected lands, and will ultimately amount to about $200,000. The income of this fund, derived in the same manner as the income of the school fund, is devoted to the support of the State University.

The number of School Districts in the state is about 3000. One year ago the investments in school-houses amounted to $281,986. A large proportion of these are tasteful and convenient edifices, especially those in some of the larger cities and towns, which are noticeable for their elegant style of architecture, and for the manner in which they are arranged to combine ease, health and comfort with the convenient pursuit of study by numerous classes.

During the past year the sum of $105,032 was expended for teachers' wages, of which $46,781 were raised by tax. The amount expended during the current year will exceed $130,000. In 1852 schools were taught, on an average throughout the state, five and one half months which will be increased in 1853, to six and one half months, thus affording for more than one half of the year, the facilities for a free education to all the children of the state.

* * * * * * *

The number of children in the state, between the ages of five and twenty years was, one year since, 124,673, of whom 90,000 had attended the public schools. The following table will show the number of children in the state, the number who have attended school, and the proportion which the latter form of the whole, since the organization of public schools under the state government:

Year.	No. children.	attended school!	per cent.
1849	70,457	32,174	46
1850	92,947	61,507	47
1851	111,431	78,944	70
1852	124,793	90,000	72
1853	135,500	108,300	80

In the number of attendants at the public schools, the increase in five years has been from thirty-two thousand one hundred and seventy-four, to one hundred and eight thousand three hundred—from a proportion of less than one half to one of four-fifths of all the children in the state.

Of school books a vast variety are in use. The evils of this are obvious to the most superficial observer. The total unfitness of many of the school books used is notorious. I have endeavored to introduce a uniformity in the use of books, and for this reason, as well as their superior merit, have approved and recommended Swan's Speller and Readers, Green's Grammar, Colburn's and Ray's Arithmetic and Mitchell's Geography.

The State University was instituted in 1852.—The sale of the lands has proceeded so slowly as to cause a degree of embartassment in its operations, and to defeat for a time the design of a free institution open to all the children of the state, who can pass the proper examination. It is located about one mile west of the Capitol. One stone building of large size has already been erected; and it is in contemplation to erect four additional buildings for future use. Its situation is delightful, upon a commanding eminence overlooking Fourth Lake, surrounded by charming scenery, and combining in a manner not surpassed by any literary institution in the Union, the advantages of a beautiful and healthy location.—The Faculty is an able body of gentlemen, composed of Hon. John H. Lathrop, LL. D., Chancellor, Prof. J. W. Sterling, Prof. C. C. Conover, Prof. Ezra S. Carr, and Tutor S. H. Carpenter.—Chancellor Lathrop is a gentleman of high ability, and an accomplished scholar. He was formerly a citizen of Missouri, and chancellor of the University of that state. The other members of the faculty are gentlemen of finished education, and well fitted for their duties.

Aside from our public schools, are a number of private and chartered institutions of a high order. Among these are Beloit College, at Beloit, and Carroll College, at Waukesha, under the patronage of the Presbyterians; Racine College and Nashota Theological Institute, under the patronage of the Episcopalians; and Lawrence University, at Appleton, under the patronage of the Methodists. At Sinsinawa Mound, in Grant co., the Catholics have established a college under the charge of Rev. Samuel Mazzuchelli, assisted by the Rev. Mr. Walker, and other accomplished professors. At Platteville in Grant co., is located an Academy, conducted by J. L. Pickard, A. M., with an able corps of assistants. The building of this Academy is an elegant one, erected at a cost of $12,000, and the institution affords facilities for the acquirement of an academical education surpassed by none of its class. At Milwaukee is a Female College of an elevated character, under the charge of several highly educated and competent ladies. At Janesville is a similar institution, ably conducted, and a credit to that beautiful city. At either of these institutions a complete female education may be acquired under the best instructors. At Madison, and many of the principal villages are High Schools furnishing at an easy rate the opportunity of education.

These are the principal means of education within the state. The deficiencies in our system of public instruction—deficiencies natural and unavoidable to a new system, but which time and experience will eradicate—have created the necessity for educational institutions under private patronage and control But such necessities will be obviated by the approximating perfection of our free schools, and our system of free instruction. It is a system which the people love. The humble temples of learning erected by their enterprise and zeal, in which the treasure of the state affords the means of education to all its children, are the "Peoples Colleges." Around this system their hopes and their affections linger. They view it as their own, and have in it, and feel for it an interest, profound and abiding.

Threatening Fire.

A few minutes after 7 o'clock, last evening, an alarm of fire was sounded for the Fourth Ward, It proved to be the large frame Barn, attached to the Menomonee Hotel, owned and occupied by DAN. NEMAN, and in the centre of a block of barns, frame buildings, factories, &c. The flames speedily burst thro' the roof of the barn, lighting up the whole city and threatening an extensive conflagration. The Fire Department, however rallied with great promptness; went to work with the most determined energy and soon had three powerful streams of water playing upon the fire.

Meantime the flames had extended to a small barn and store-room occupied by J. F. BINGHAM; but they got no further. The exertions of the Firemen arrested their progress at that point and very soon subdued and extinguished them. We never saw our gallant Firemen work to better purpose and their praise was on all lips.

The damage done was trifling compared with what was at first apprehended. Horses, Waggon and every thing moveable was got out of the two barns. These, however, were pretty much destroyed. Mr NEIMAN had an insurance of $400 on his barn—less $600. We did not learn whether Mr. BINGHAM was insured, but his loss must have been in considerable. The barn of the American Hotel, adjoining NEIMAN'S on the west and happily of brick, was pretty well scorched, but not otherwise injured. The fire is supposed to have been set by design. Had it occurred at a late hour, or on so cold a night as Saturday or Sunday last, it must have been very destructive.

POLICE COURT—Jan. 25.

A warrant was issued against a woman named in the writ Mary Doe, on complaint of Peter Lurke, charging Mrs. Doe with attempting to break the peace. The woman was arrested and put in jail by constable Megarigle.

The case of the state vs. Charles Sargeant was settled defendant paying costs.

☞ We are informed that Daniel McLoud, who is reported in the daily papers, to have died by freezing in consequence of intoxication, actually died of sta vation. He had but one arm and was unable to gain a livelihood.—*Morning News*, Wednesday.

We copied into the *Sentinel* of Tuesday, an article from the *Wisconsin* of Monday, containing an account of the death of the man alluded to above. The statement in the *News* is entirely wrong. So far from DONALD MCLEOD having died of starvation, he had food in his house at the time of his death, and money in his drawer, and an abundance of poultry, &c. The facts of the matter may be thus briefly stated:—McLeod was a native of Scottand, the owner of a half lot on which his house was situated. About ten days ago, he obtained a loan of ten dollars from his friend and countryman, Mr. MURRAY, living on Market Square, to pay his taxes, amounting to about six dollars. With the balance of the money he purchased whiskey, and was on what is commonly called a "bender" *i. e.* a drunken spree. He remained in this state about eight days, eating but little food, but occasionally taking coffee, crackers, &c. On Sunday, between 4 and 5 P. M. a Scotchman named Tavish, a shoemaker, called at McLEOD'S house, and found a pile of snow in front of the house and no tracks near the door. He opened the door and went in, McLeod was sitting on the floor, with his head on his right arm, leaning on the side of the bed. Tainsh took hold of him, supposing him drunk and nothing more, as the stove was tipped over and there was other evidence unmistakeable of drunkeness; McLeod was *dead*, but the body was not cold then. Mr Murray was sent for, the body was laid out for burial, after it had been seen by Esquire Parsons, who was satisfied as to the cause of his death and that no inquest was needed.

This is the true version of the matter as stated to us by several eye witnesses. There is something so truly horrible in the idea of "death for the want of food," or as the *News* has stated, "*Died of starvation*," in a country like this, that we considered it a duty incumbent upon us to investigate the matter thoroughly and to wipe away, if possible, the stain thrown on our city of allowing one of her residents to die for the want of food. The death of the unfortunate man, was caused by *delirium tremens*, brought on by a drunken spree of several days duration.

We believe that an instance of *death from acute starvation* has never yet occurred in this country, and we trust it never may.

FROZEN TO DEATH.—We learn by a gentleman from the country, that on Sunday night last, two farmers returning with teams loaded with lumber from Ripon, were frozen to death on Green Lake Prairie about 50 rods from a house. The teams were in a snow drift and the men were both dead and stiff. On one of the Buffalo robes was marked "Wilson," supposed to be the name of one of the farmers. Our informant adds that a short time after the two were discovered a man was heard hollowing, and on going to his aid he was found to be insensible from cold, his team being set in a drift; he was after some time resuscitated and ultimately came to, with his hands and feet badly frozen. With the first two jugs of Whiskey were found, and it is rumored that they were drinking men. We hear of several other deaths from freezing, but have not yet learned names, or particulars.

THE BRIDGE COMMITTEE.—It is currently reported round town that the last that was seen of any one of the Bridge committee, was near the Menomonee bridge, with the thills broken out of his sleigh. This bridge is in a condition now, and has been for the past week, as to make it extremely dangerous for teams to cross. The flost has sunk, making a hollow in the bridge, which is not to be seen till the horse has jumped, frequently by so doing, throwing people out of their sleigh or waggon. On Tuesday we counted nine teams that had to be unloaded to enable them to get out of the hollow in the baidge, the drivers swearing vengeance on the Bridge Committee.

P. S. Passing this Bridge yesterday afternoon, we discovered men at work, under the supervision of Ald. MARTIN of the Fifth Ward, raising the float and repairing damages.

LECTURE ON FRIDAY.—We are glad to learn that Mr. W. E. ROBINSON, for a long time one of the editors and correspondents of the N. Y. *Tribune*, tho' no longer connected with the Press, is to lecture here on Friday (to-morrow) evening, before the Young Men's Association. Mr. ROBINSON is a man of decided ability, original views and much experience, both as a writer and speaker. We are quite sure that his Lecture will be richly worth hearing and hope that he will be greeted, on his first visit to Milwaukee, with a large and appreciating audience. His subject will be: "The sources of the American Population."

FAST DRIVING.—We have been asked by the City Marshal, to call the attention of the public, and those who indulge in sleighing on East Water Street, to the ordinance against driving faster than a moderate trot under a penalty of *five dollars*. On Tuesday, several ladies narrowly escaped being run over, they not hearing the approach of the sleigh, as there were no bells on the horses. The ordinance applies to fast driving in cutters, as in buggies, or other vehicles, and is meant to prevent danger to pedestrians.

REAL ESTATE SALE.—The lot on Milwaukee street, 60 by 120, next to the corner of Mason, was sold yesterday, by Messrs. RICHARDSON & DIXON to T. R. RODDIS for $3000. The same property was purchased 18 months ago for $2000.

CHANGE OF WEATHER.—The wind hauled round to the South and East, yesterday, and the mercury rose rapidly under its warmer breath. Towards evening a slight drizzling rain set in and the gathering clouds wore a stormy look.

BELLS! BELLS! BELLS!—Every sleigh team driven thro' the streets should be required to carry bells, to notify pedestrians of their approach.—For want of these, persons crossing the streets are liable to be knocked down, or run over.

MANITOWOC AND MISSISSIPPI RAILROAD.—We have now the satisfaction to be able to state that matters are so far established that the early construction of the Manitowoc and M. & R. R. to this place is within the reach of our citizens, and only contingent upon a subscription of some $200,000 stock by the towns on the line of the Road. On the 16th day of October last, the contract for the construction of the Road to this place was taken by Col. J. W. Phillips, to be completed and equipped before the first day of April, 1855. A corps of Engineers are now engaged in the survey and location of the road. The contractor is on the ground, and has issued proposals for the ties, and taken all the preliminary steps for a vigorous prosecution of the work. In order to enable the company to meet its engagements with the contractor, it will be necessary for the towns along the line to take $300,000 in stock, or loan the company their credit for that amount. We are assured the Manitowoc will take $150,000 of this, and we cannot doubt but the town of Neenah having within her limits two important manufacturing villages, will make up the remainder.

The importance of this Road, none can doubt who are at all acquainted with the vast resources of the county which will thus be directly opened and placed in communication with the great commercial emporium of the nation. It will be 41 miles in length, and at this point will connect with the River Improvement, and an uninterrupted line of navigation to the Mississippi and for 150 miles up the Wolf River. The business of the road will render the stock equal to any road in the country—thus affording the stockholders a great remuneration for their investment, while the largest benefits will accrue to the owners of lands and the agricultural and manufacturing interests in that immediate vicinity.

We understand it is the intention of the company to submit a proposition to the people of the town for a subscription to the stock of the Road or a loan to the company of its Bonds, for $150,000—and we hope that the matter will be fully, canvassed by our citizens, and acted upon dispassionately and with a view to the best interests of the country.—*Menasha Advocate, 20th inst.*

OUR RAILROAD.—We publish this week, from the Milwaukee Sentinel, an abstract of the annual statement of the M. & M. Rail Road Company. The condition of the Company is highly gratifying to its friends and creditable to those who have managed its affairs during the past year.

We refer our readers to the above mentioned abstract for the facts and figures which attest the astonishing prosperity of this pioneer enterprise. It should be recollected that the road as yet has no connection with any place in particular, but is entirely dependent for business upon the trade and travel to be gathered up along its immediate line. As yet it intersects no considerable thoroughfare, natural or artificial; and yet the Company, after paying all the expenses of operating the road, and a considerable amount of the expenses of construction, are enabled to declare a dividend of ten per cent, and still there is a surplus of money on hand. When the road reaches Madison, as it very surely will this winter, its business will be greatly enlarged. When it reaches the Wisconsin it will then, for the first time, be in connection with a thoroughfare, and will commence carrying for a region and a people not immediately along its line. When it finally reaches the Mississippi it will then *commence* the business for which it is being constructed—the immense trade and travel between the Upper Mississippi and the Atlantic coast, which now seeks all sorts of roundabout, expensive and slow channels, will then flow along its track in an uninterrupted stream. The way business, which now so liberally supports the road, will, in the meantime have greatly increased.—*Crawford Co. Courier.*

CREDITABLE ALL AROUND.—An accident occured on this end of the Michigan Southern Railroad Friday morning, which, though painful in its character, was the occasion of highly creditable acts on the part of the officers, and of a display of praise worthy generosity by the passengers on the train. A gentleman and lady, with their family of several small children, took passage from Chicago to Toledo, the lady occupying one seat with two of her girls, and the gentlemen another seat with his boy, about seven years of age, in another part of the car. During the trip, the children passed frequently from one seat to the other. Finally the boy, apparently tired of running about, fell asleep at his father's side, not long after which the latter fell asleep also. After sleeping some time he awoke, but his son was gone.

On hearing the facts, the conductor, Mr. Chas. G. Guthrie, promptly ordered the engine reversed, which was done. It was found, however, that the water in the boiler was not sufficient to reach the spot. Mr. Simmons, the baggage man, and one or two others, then ran back about a mile and a half, when the little fellow was found lying beside the track, with one of his legs broken at the thigh. He was taken back to the car, medical assistance procured, and every attention paid to him that the case required.

On their arrival in Toledo the passengers raised a fund and purchased a valuable gold pencil and a ring, which they presented to Mr. Simmons, the baggage master, as an evidence of their appreciation of the part he had taken in the affair.—*Chicago Democrat.* Jan. 24th.

SHALL WE HAVE A PORK INSPECTOR IN OUR CITY.—We notice an editorial in this morning's Sentinel, with reference to the appointment of a Pork and Beef Inspector. It is very important for our lumber dealers, to have their pork inspected; in fact, it is the interest of the public, at large, speculators would then come into our markets with some confidence, as they go to Cleveland, Cincinnati, &c. We learn that the value of the pork packed here this season will exceed $400,000. We hope to see Milwaukee figure largely in a few years, in the pork packing business.—*Wisconsin.*

☞ Our common Council have passed stringent ordinances against drunkenness, and we hope will put them in force. But let the work be commenced with our genteel loafers. Look at drunkards in brondcloth first, is our advice; then put the poor laborers through, who only imitate the aristocracy.—*Janesville Free Press.*

SOUTHERN WISCONSIN R. R.—We learn that nothing was done at the late meeting of the directors at Madison. Mr. Dewey, the president, was sick and necessarily absent. They adjourned two weeks. Why do not our citizens move in this matter?—*Janesville Free Press.*

☞ DEER.—The woods boys are having fine times deer hunting. The Rock River woods are full of deer, and the hunters are bringing them in by sleigh loads.—*Watertown Register.*

REPORT
OF THE
BOARD OF DIRECTORS.
OF THE
LA CROSSE & MILWAUKEE RAIL ROAD CO.

OFFICE OF LA CROSSE & MILWAUKEE R. R. Co.,
January 18, 1854.

To the Stockholders of the La Crosse and Milwaukee Rail Road Company:

In submitting to you a Report of the condition of the Company at this time, it is thought more appropriate to bring up the business to the close of the year 1853, than to extend it to the present date.

It will be recollected that the present Board of Directors was elected on the 30th day of March last, and their operations consequently only embrace a period of nine months.

Immediately after their election and organization, active efforts were made to put the Road under contract; and, accordingly, on the 4th day of July a contract was entered into with Bradley, Whittemore & Co.,—a firm of ability and extensive experience in Railroad construction: by which contract, the contractors were to grade, grub, build culverts, bridges, road and farm crossings, cattle guards, furnish cross-ties and lay the track of the First, or Eastern Division of the Road from Milwaukee to Portage City, for seven thousand dollars per mile, one-fourth part payable in the capital stock of the Company, and three-fourths payable in cash.

The contractors immediately entered upon the construction of the Road, and have been vigorously prosecuting the work ever since. The amount of grading and other work done on the line up to the 31st Dec. 1853, according to the estimates of the Chief Engineer is,..... $78,189 59

Paid for Right of Way, as far as Beaver Dam,.		4,975 02
" " Damage to crops on farms,.....		288 13
" " Milwaukee Depot Grounds,.....		17,775 48
" " Building,.....		300 00
" " Engineering Eastern Division,.....		13,418 58
" " " Western "		761 08
" " Personal Property,.....		1,487 82
" " Preliminary and current Incidental Expenses, Taxes, & Interest Acc't.		18,728 13
		$135,923 83
Of the above sum, thirty-five thousand two hundred and twenty-nine dollars and ninety-six cents, was paid by this Company to Bradley, Whittemore & Co. for work done and materials furnished on the first eighteen sections of the Road: The same has since been re-imbursed, or satisfactorily provided for, by the Milwaukee, Fond du Lac and Green Bay R. R. Co., and should therefore be deducted,.....		35,229 96
		$100,693 87

The amount of subscriptions to the capital stock of the Company, by Farm Mortgages and otherwise, has been constantly and is still increasing; never before with better prospects of reaching the limits of our Charter than now.

The available resources of the Company may be stated as follows:

Capital Stock Subscriptions,.....	$1,200,000 00
Milwaukee City Bonds, granted by a vote of the City,.....	200,000 00
To which may be added Capital Stock to be applied towards Road construction,.....	600,000 00
First Mortgage Bonds to the amount of $10,000 per mile, on 181 miles of Road,..	1,810,000 00
Notes and obligations, and cash on hand,....	33,818 60
	$3,843,818 60

Of the above specified stock subscription, a large proportion consists of "Farm Mortgages," which are considered of the most reliable character, embracing a body of farmers unsurpassed in frugality, industry and integrity, spread over the country upon either of the line of the road, securing, as it inevitably must, the cordial good will and support of the entire community.

This flattering state of the finances and prospects of the Company, cannot fail to be gratifying to all its friends, and must force those who have looked upon the enterprise with doubt and uncertainty, to a conviction favorable to its success and prosperity; and more especially when it is recollected that the last three months have witnessed the most unprecedented pressure in the money market.

It must be apparent to all, that with such an amount of resources, the Company have abundant reason for a confident belief in their ability to accomplish the work at an early day. Besides the above means, it is quite certain that a very large accession to the Stock subscriptions can be made, as daily experience proves, by the success of the agents who are engaged in that business.

There is also good reason to anticipate that several, if not all the counties through which the line of the road passes, will issue their bonds to the Company, for the purpose of aiding in the construction of the road.

And may we not look for a grant of land from Congress in aid of our road? It is certain that we propose to pass through more or less of Government lands, and as surely, we are directing the line of the road towards, and in the vicinity of, a vast amount of public land. Similar grants have been made in other new States, and it is not easy to render any good reason why Wisconsin should not be treated with as much liberality as other States.

It is believed that this Company merit as much as any other that has ever been organized in any State; more than seven hundred farmers having mortgaged their homesteads, to aid in its construction. They are not speculators, intent upon making their own fortunes, but are composed of the great body of land owners and residents along the line of the road.

The line of the road has been definitely established, as will be seen by reference to the Report of the Chief Engineer, hereto appended, from Milwaukee to Fox Lake, and pretty clearly indicated thence to Portage City.

A preliminary survey has been made of the Western Division, from Portage City to La Crosse, showing a feasible route by way of the Lemonwier valley; while another party of Engineers have been engaged in examining a route by way of the Baraboo, from which no report has been received. No sufficient information having been obtained of the route by that river, it is impossible to express any opinion upon its practicability. Yet, from information derived from sundry reliable sources, there remains no doubt, but that a very large amount of the most reliable Stock subscriptions would be realized from citizens residing in its vicinity, if it should be found practicable to adopt it.

The operations of our fiscal agent, under the stringent state of the money market for the last three months, have been gratifying, and so successful, that we have all bundant reason for confidence in our soundness, and ability to prosecute the work more effectually as the spring opens.

Feeling a confidence in our own integrity, as well as in the honest purposes of our stockholders, with a firm reliance upon the support of Providence, we pledge ourselves, with all our united efforts, to the prosecution of the work committed to our charge.

Signed on behalf of the Board of Directors,
STODDARD JUDD, *President.*

PROSPECTUS OF
Thos. H. Benton's Great Work.

THIRTY YEARS' VIEW, of the workings of the American Government. Published by D. Appleton & Co., New York, and sold exclusively by subscription.

During the last thirty years there has been no important public measure in which this active and distinguished statesman has not taken an able and decisive part, and been familiar with the influences, whether secret or public, which have urged forward or opposed each. He is therefore well qualified to write the history of this period.

This work will be completed in two volumes, the first of which will be published early in the year 1854, and will be brought down to the close of the administration of Gen. Jackson, and will thus form a complete work by itself, containing about 700 double column, royal 8 vo. pages, and a superbly engraved portrait of Senator Benton.

Price $2,50, payable on delivery of the book.

The book of subscription, together with specimen sheets, can be found at the law office of Messrs. TUCKER & GARVEY; and the Agent will soon give an opportunity to persons desirous of subscribing to do so at their residences and places of business throughout the city and county. jan12

PREPARED BY

Proof Positive—Skeptics Read—Testimony! Testimony!!

HAMPDEN, Feb. 24, 1845.

Messrs. J. Curtis, Jr., & Co.—GENTLEMEN,

I have a word to say to you, in favor of Hunter's Cough Syrup. I have the past year used in my practice, two dozen bottles of it, which I find of you, and every bottle has done good. For eight years past, I have been in the practice of Medicine, and I never have found any thing, so well calculated to operate so favorably in all diseases of the lungs as that is. I have found a hard, distressing cough, cured in forty-eight hours, by using (in broken doses) one bottle of it. One case here in particular, or a man who was thought to have a settled consumption, coupled with a hard distressing cough. I let him have one bottle, and he had two more of your Agent, Mr. Whittmore. After using the 3 bottles, he has become well and now labors every day. So tell me lately, that Hunter's Cough Syrup was the means and only means of his cure. I have given it to infants, to children, to adults, and have the pleasure to inform you that it has done good in every case. I shall do all in my power to recommend it in the cases above named, not wholly for your benefit, but for the benefit of suffering humanity.

BENJAMIN L. POMEROY.

INDIAN DYSPEPSIA PILLS.

Dyspepsia and Indigestion, with Costiveness, Acidity of the Stomach, Heart Burning, Bilious Complaints, producing Headache, Pain in the Side, Loss of Appetite and General Debility, can be remedied, removed, and entirely cured by the use of the INDIAN DYSPEPSIA PILLS.

The Pills have effected the most astonishing cures in hundreds of cases of the above complaints, and are an invaluable remedy, in an especial manner, for Dyspepsia—They are a mild and gentle Cathartic, operating mostly upon the blood, cleansing and purifying the same, and causing the digestive organs to perform their appropriate duties with regularity.

A CARD.

MRS. WINSLOW TO THE LADIES.

Mrs. Winslow, an old and experienced nurse and Female Physician, would call the attention of the Ladies to her Soothing Syrup for Children teething. It will immediately relieve the child from pain, allay all spasmodic action, soften the gums, reduce inflammation, and is sure to regulate the Bowels. Depend upon it, Mothers, it will give rest to yourselves and relief and health to your children.

Price 25 cents per bottle.

We have sold very large quantities of Mrs. Winslow's Soothing Syrup, during the past six years, over 20,000 bottles the last year. We believe it is the best medicine in the world for Children teething or for the cure of Dysentery and Diarrhea in Children whether it arises from teething or any other cause. We never have known an instance when a complaint from any one using it—never sold a medicine so universally successful in relieving pain and affecting cures. In all cases above stated if taken in season relief is immediate and certain.

Agents are now established in all the principle towns in the State of New York.

CRAMP AND PAIN KILLER.

The world is astonished at the wonderful cures performed by the Cramp and Pain Killer, prepared by Curtis & Perkins. Its equal has never been known for removing pain in all cases; for the cure of animal complaints, cramp in the stomach and stomach, bowel complaints in all its forms, bilious colicks, chills and fever, burns, sore throat, and gravel, it is decidedly the best remedy in the world. Evidence of the most unquestionable cures ever performed by the medicine are in circulars in the hands of Agents. You may on positively cure of relief if you use it. Millions of bottles of this medicine have been sold in New England the past six or eight years—it is now for the first time being introduced into all the principle towns in New York.

HUNTER'S CELEBRATED

Pulmonary Balsam or Cough Syrup,

PREPARED BY

BANGOR, MAINE.

Proof Positive—Skeptics Read—Testimony! Testimony!!

HALLOWELL, Feb. 24, 1846.

Messrs. J. Curtis, Jr., & Co.—GENTLEMEN,

I have a word to say to you, in favor of Hunter's Cough Syrup. I have the past year used in my practice, two dozen bottles of it, which I had of you, and every bottle has done good. For eight years past, I have been in the practice of Medicine, and I never have found any thing so well calculated to operate so favorably in all diseases of the lungs as that is. I have known a hard, distressing cough, cured in forty-eight hours, by using (in broken doses) one bottle of it. One case here in particular, of a man who was thought to have a seated consumption, troubled with a hard distressing cough. I let him have one bottle, and he had two more of your Agent, Mr. Whitmore. After using the 3 bottles, he has become well, and now labors every day. He told me lately, that Hunter's Cough Syrup was the means, under God, of saving his life. I have given it to infants, to children, to adults, and have the pleasure to inform you that it has done good in every case. I shall do all in my power to recommend it to the afflicted, and feel that I am not wholly for your benefit, but for the benefit of suffering humanity.

The Pills have effected the most astonishing cures in hundreds of cases of the above complaints, and are an invaluable remedy, in an especial manner, for Dyspepsia.—They are a mild and gentle Cathartic, operating mostly upon the blood, cleansing and purifying the same, and exciting the digestive organs to perform their appropriate duties with regularity.

Proof Positive—Skeptics Read.—Testimony! Testimony!!

HAMPDEN, Feb. 24, 1846.

Messrs. J. Curtis, Jr., & Co.—GENTLEMEN,

I have a word to say to you, in favor of Hunter's Cough Syrup. I have the past year used in my practice, two dozen bottles of it, which I had of you, and every bottle has done good. For eight years past, I have been in the practice of Medicine, and I never have found any thing, so well calculated to operate so favorably in all diseases of the lungs as that is. I have known a hard, distressing cough, cured in forty-eight hours, by using (in broken doses) one bottle of it. One case here in particular, of a man who was brought to have a seated consumption, troubled with a hard distressing cough. I let him have one bottle, and he had two more of your Agent, Mr. Whitmore. After using the 3 bottles, he has become well, and now labors every day. He told me lately, that Hunter's Cough Syrup was the means and only means of his cure. I have given it to infants, to children, to adults, and have the pleasure to inform you that it has done good in every case. I shall do all in my power to recommend it in the cases above named, not wholly for your benefit, but for the benefit of suffering humanity.
